Comments: (If possible, please reference section and/or page number in document if applicable.)

I do not feel Nevada should be put
on the position of storing nuclear waste.
Everything I've read and seen on T.V.
Yucca Mountain is not a safe repository.
But the Dept. of Energy keeps on spending
my taxpayer dollars. It's time to stop
and listen to what the people want.
Let the states that produce this
waste store it on their own backyard.
Transporting n. waste across the
country going through many several
areas is in my opinion a danger
to all Americans!!

Thank you...

Bonnie Brook
